

I have 28 million reasons to vote NO for the Referendum for Spending on April 5<sup>th</sup>.

Some don't realize the level of funding we have given the Oshkosh Area School District  
It is rather eye opening. From 2009 to 2014 OASD has received \$83.4 million through  
Referendum and Energy Efficiency Bonds. That is above what they get from regular  
Taxes and the many grants they receive. Here is the list:

2009 Maintenance Referendum **\$6.5 million**

2012 Oaklawn School Referendum **\$12.9 million**

2012 Energy Efficiency law enacted for **\$21.5 million** (no referendum)

2014 Technology Referendum for **\$28 million**

2015 Energy Efficiency law enacted for **\$14.5 million** (no referendum)

Over those 6 years OASD has received A LOT of extra money. That is \$13.9 million  
extra each year over the, already large, tax levy. Yet they still want more...

Another \$28 million... sigh...

**FYI:** The Energy Efficiency law was passed by the state in 2012 to allow school districts  
to cover deferred maintenance projects. The Oshkosh School Board can approve this tax  
increase without voter input. **NO referendum** is needed but we still pay.
